See the opportunity through new eyes

Advance | C4ISR™ is something new in the marketplace. Not a general-interest opportunities service, but a specialized window into the vast and evolving C4ISR domain, giving you the perspective of a experienced analytical team backed up by the full market intelligence of the DACIS service. When you add the Advance | C4ISR™ service to your DACIS subscription, you'll benefit from...

- · Lead identification, tracking and notification
- · Deep, flexible search engine
- Task order detail and place of contract execution
- · Opportunity report generation and export capability to Excel
- Focused, expert coverage on C4ISR market

Finding the right opportunity is **just the start**. Winning the work requires best-inclass insights into the customer and the competitive field. DACIS supports you right from the first gate decision, saving you from pursuing work you shouldn't bid (funding not there, incumbent too entrenched, key subcontractors unavailable) while validating the strongest opportunities. Once you have the green light, DACIS supports all aspects of capture, including pricing, team selection (you may especially like the subcontractor information), and nailing down key past performance and credibility.

Welcome to Advance | C4ISR™. Opportunities intelligence, done the DACIS way.
